

Summer Math Expectations

All students must:

1. Complete the Course Challenge for their upcoming math course in Khan Academy.
2. Self-report your score using this Google Form: [Summer Math Homework](#)
3. If they score below 70%, they should complete the recommended practice provided by Khan Academy to improve their mastery.

We recommend students spend 20-30 minutes, 2-3 times per week until the challenge and follow-up practice are complete.

Assignments by Math Level for next school year

➤ Entering 7th Grade Math

- Assignment: Complete the *Course Challenge* for Get Ready for 7th Grade Math

➤ Entering 8th Grade Math

- Assignment: Complete the *Course Challenge* for Get Ready for 8th Grade Math

➤ Entering Algebra 1

- Assignment: Complete the *Course Challenge* for Get Ready for Algebra 1

➤ Entering Geometry
