

Re: Summer course enrollment - [CLICK to enroll](#)

True North/Florida Virtual Summer Class Option

We are excited to offer several Flexible True North / Florida Virtual School courses during the summer. The core of the courses are from the Florida Virtual School platform. We have modified these courses to enable our students to have a wonderful opportunity to master the foundational knowledge necessary to succeed for the upcoming school year in subjects such as Algebra, Geometry and Algebra II. Additionally, there will be no cost to students to take any of these summer courses.

These courses are modified to enable completion during the summer through a combination of self-paced and teacher facilitated course navigation. Although most are not for credit during the summer, they will give your student a strong advantage in the upcoming school year and prepare them for the rigors of the True North Mathematics curriculum. Additionally, students taking these summer courses will be awarded extra credit towards their grade in the fall semester. As you know, our Math program ranks amongst the very top in the state and we couldn't be more excited to give our students the skills, knowledge and tools necessary to have them excel in the Fall.

What courses are available:

- **Algebra Foundations:** this course prepares students for the honors Algebra track
- **Geometry Foundations:** this course prepares students for the honors Geometry track
- **Bridge to 5th grade math:** this course prepares students for the rigors of our 5th grade math program which has the rigor of a middle school curriculum.
- **HOPE fitness** - this course is designed to be completed for High School Credit over the summer. Many True North students completed this course on the platform after our buildings were closed.

Who should take these courses?

- **Algebra Foundations:** any student who will be taking Algebra I next year or any student who needs an Algebra refresher prior to taking Algebra II
- **Geometry foundations:** any student who will be taking Geometry next year
- **Bridge to 5th grade math:** any new or existing student that is going into 5th grade.
- **HOPE fitness:** any rising 8th, 9th or 10th grader that would like to do the fitness program and earn high school credit.

Who is teaching the courses?

- The Florida Virtual School platform enables a student to independently learn the subject matter through an interactive text, video and assessment platform.
- Our True North teachers will provide personalized instruction to reinforce the virtual text in the online classroom via phone, zoom, email and text. Mrs. Rowlands will be involved in all of the Mathematics courses.

Will other courses be available?

- Yes, we are working with our faculty to have additional courses available shortly.

How much do the courses cost?

- There is no cost for these summer courses

When do I sign up?

- Enrollment period opens up from June 1st to June 15th. Courses can begin after enrollment.
