Summer Learning Plan

Dear Parents:

It's difficult to believe that summer is here! And while we believe that the summer months should be an opportunity for leisure and quality time spent with family, we also believe that a healthy engagement of the mind is necessary to keep the learning of the past year fresh and to help create a bridge for the new learning to come. With that said, we have asked teachers for help in creating the following summer learning plan. The reading plan will include reading one novel and to answer comprehension questions; the math plan will participation in a FLVS course OR completion of appropriate math nation assignment.

Eighth Grade to Ninth Grade

Reading:

The Seven Habits of Highly Effective Teens by Sean Covey

[9th-Grade Summer Reading Book](#)

Assignment: Answer the attached comprehension questions.

Math:

True North FLVS summer class option (see details below)

OR

***Upcoming Geometry Students Only:** *Section 1 of Geometry Nation, watch videos and complete the test yourself for section 1.*

***Upcoming Algebra 2 Students Only:** *Complete Section 2 Algebra Nation Algebra 2 and Test yourself.*

Assignment: completion of FLVS course OR math nation assignment as listed above.

True North/Florida Virtual Summer Class Option

We are excited to offer several Flexible True North / Florida Virtual School courses during the summer. The core of the courses are from the Florida Virtual School platform. We have modified these courses to enable our students to have a wonderful opportunity to master the foundational knowledge necessary to succeed for the upcoming school year in subjects such as Algebra, Geometry and Algebra II. There will be no cost to students to take any of these summer courses. Additionally, completion and passing of the course will provide students with an overall grade boost in the upcoming school year.

See attached for more information.

Let me know if you have any questions.

Enjoy your summer!!

Warm regards,

Marc Snyder, Ed.D.
