TRUE NORTH CLASSICAL ACADEMY'S VISION & MISSION

The mission of True North Classical Academy is to inspire a thirst for knowledge within our students, aligning passion to purpose, in the pursuit of the True, Good, and Beautiful. True North achieves its vision through a rigorous, knowledge-rich curriculum grounded in the tradition of the classical liberal arts. Through steadfast focus on scholarship, citizenship, and leadership in an environment that values and models intellectual and moral virtue, we seek to empower our students to reach their highest potential, develop into exceptional persons and citizens, and sustain a lifelong love of learning.

THE HONOR CODE

Instilled in all students from the moment they begin at our school the True North Classical Academy Honor Code was developed by our students to embody the core virtues we stand by and is signed by all students each academic year.

CURRICULUM OVERVIEW

True North Classical Academy offers a highly rigorous, accelerated academic curriculum built on two fundamental beliefs: that both virtue and knowledge are necessary to live the good life; and that a flourishing, free society requires its members to be wise citizens of virtue. Primary source texts and the Great Books drive our humanities instruction. They present students with a rich and varied array of content and an introduction to the history of human thought and great ideas.

Classical virtues, leadership, and service opportunities, and the cultivation of self-governance are taught explicitly through the curriculum and in the spirit of the Western heritage. The Socratic method is implemented widely throughout upper school classrooms and as appropriate in elementary classrooms, thus engaging students in powerful discussions and contributions in the classroom. A senior thesis on a topic of fundamental importance delivered and defended in front of an audience of faculty and peers, is required to graduate.

SENIOR THESIS AND DEFENSE

Each graduate completes a capstone project known as the Senior Thesis. The Senior Thesis is the culmination of the student's years at the academy. In this project, students work closely with a faculty advisor to read and discuss two to three significant Great Books. The student will produce a thesis that synthetically brings forth their own answer to a major philosophical question and participates in an oral defense of their work.

HUMANE LETTERS

Perhaps the most distinctive feature of the curriculum at True North is Humane Letters. Throughout grades 9th through 12th, English and History are integrated in the Humane Letters courses: these include daily seminars, directed Socratically and revolving around readings from Western Civilization's best works in philosophy, drama, history, poetry, novels, and essays. This collaborative setting allows for the development of the art of conversation, which includes above all the habit of listening well to both the great authors as well as their peers. The class is an exploration of the permanent questions that animate any truly human life through the history and literature of the Great Books.

COVID-19 IMPACT

Fortunately, our instruction time was minimally interrupted and we provided in-person instruction to all students for the past two years. The area mostly impacted was our extracurricular & after-school offerings. The number of offerings was limited and our students had to find extracurricular activities outside of school in the community. Moving forward, we redesigned our club, honor society, and community service framework and are offering more diverse activities for our high school students.

ADVANCED PLACEMENT (AP), DUAL ENROLLMENT (DE), AND HONORS COURSES

Because our curriculum is rigorous in nature, we administer limited AP courses and exams. Students are only eligible to take a maximum of 3 AP courses per academic year starting Junior year. Any student who takes an AP course must also sit for the exam. Students have the opportunity to participate in a limited number of DE courses and earn college credit via Doral College or Miami Dade College. In order to take any AP or dual enrollment course, a student must be approved by the teacher and have a minimum weighted GPA of a 3.0. It is important to note, courses will have an AP or DE designation on official transcripts. Most courses are offered at an Honors level and designed by an H on official transcripts.
